7) United States coins and currency will not, in conformity with law, be opened at less than the face value.
8) No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Bidders not known to us are required to deposit 25% of their bids in advance.
14) Title does not pass until payment in full is received. NASCA reserves the right to await clearance of any check before making delivery.
15) If a collection agency attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by NASCA shall be borne by the defendant. The signer of a NASCA bid sheet or participant in the auction concedes the jurisdiction of the courts of New York State or the U.S. in Nassau County or New York City as NASCA alone shall elect. The participant in a NASCA auction also assumes both corporate and personal liability for unpaid auction bills.
16) New York State sales taxes or other state sales or use taxes shall be levied, as required by law. Dealers and other non residents are reminded that sales tax must be collected unless Form ST-128 I has been filed properly, under regulations effective I December 1982.
17) NASCA may reopen the bidding on a lot under the following circumstances: 1) NASCA has failed to execute correctly a mail bid. 2) A party purchasing the lot on the floor has done so in error. 3) Where a protest is made after the hammer has fallen but before the bidding has commenced on the next lot. 4) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. 5) At the discretion of the Auctioneer.
18) In the event of any dispute, the decision of the auctioneer is final.

GUARANTEES AND RIGHTS OF RECOVERY

19) No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.

The item will be examined by a recognized expert; if the item proves authentic, the sale will be consumated. If the item is not authentic, the sale price will be refunded.

Condition Terminology for Paper

Gem Unc. (Gem Uncirculated) - The perfect uncirculated item, clean, bright, vivid, crisp (where paper permits), well-margined, unimprovable, without folds.

Choice Unc. (Choice Uncirculated - A lovely uncirculated item, having only a hint of aging or unevenness of the margins, face or back, or narrow margins which take it out of the "Gem" class.

Unc. (Uncirculated) - As made or issued, but margins may be poor, the item lightly aged, with border trimming.

Choice AU (Choice Almost Uncirculated) - Essentially a mishandled uncirculated item with deficiencies like a corner fold, teller counting smudge or count wrinkling.

AU (Almost Uncirculated) - There is one fold, a teller counting smudge or counting wrinkling present.

EF (Extremely Fine) - An item which may, at first glance, look uncirculated but which has several petty folds, or a hard crease down the center perhaps with corner folds. Crisp, bright, vivid and pleasing, the paper as made, permitting.

VF (Very Fine) - Typically an item marked by moderate quarterfolds with perhaps a few other signs of handling. Should be clean, not seriously aged, torn, or pinholed.

F (Fine) - The last grade of an item in which the paper still has body. The folds are numerous and the design is beginning to show signs of soiling wear.

VG (Very Good) - A well circulated item, complete, unimpaired except for petty edge splits, pin holes, some surface splitting along heavy folds and soiling.

Good (Good) - An even more heavily circulated item with body holes, petty tears and splits, very soiled and tired, scarcely legible.

Fair - Heavily worn, split, holed, up to 10% gone, legibility seriously impaired.

Poor - A mere remnant, tattered and torn, scarcely readable with typically more than 10% of its surface area gone.

A or **Abt** (before a grade) - A shade below the grade it preceeds.

Plus or + (following a grade) - A shade better than the grade.

VF-EF (hyphen between grades) - The grade is about halfway between the two grades shown.

VF/Good (slash between two grades) - Face and back are two different grades. The grade preceeding the slash is for the face. The grade following is for the back.

Condition Terminology for Coins

This is the first example of this note known, we believe. A great rarity. There is also a memo from the Office of the Comptroller which states that "Section 20 of the General City Law and Section 93d-3.0 of the Administrative Code for The City of New York expressly prohibits the Comptroller from making payment of such outlawed obligations," which was sent to us recently.

1002 **OLD FAVORITES NOT SEEN RECENTLY. Especially for Brooklyn-philes. 2 Pcs.** **($130-160)**

The bond is registered to George F. Baker and the separate power is signed by him. Baker was the Cashier, later influential president of the National City Bank, and an important Wall Street figure.

1004 **CHICAGO & CANADA SOUTHERN** (NY) 1879. **50 shs,** gr & bk. Train. **($200-300)**

Revere Motor Car was incorporated in 1917 and manufactured a high powered automobile with a Duesenberg-type motor; company built about 10 cars a day at its plant in Indiana. In February, 1921, the company went into receivership. In May of that year a reorganization, to be capitalized by old stockholders, was announced but was stopped by an injunction in June. The court order asked, in part, for an accounting, alleging that the corporation should have had more than $1.5 million in visible assets instead of being insolvent.

THE PENN CENTRAL COLLECTION

RAILROAD STOCK AND BOND CERTIFICATES
GENERAL CERTIFICATES REPRESENTING
CORPORATE INVESTMENTS

The Penn Central Corporation is one of the largest companies in the United States, and for over a century its predecessors were engaged in the transportation industry: the Pennsylvania Railroad, starting in 1846, and the New York Central Railroad, starting in 1853. These two companies and the many others they controlled eventually grew into a tremendous system covering the northeastern quadrant of the United States. It encompassed many activities related to rail transportation. When Penn Central sold its transportation business after 1974, it entered other businesses, and its holdings of stock and bond certificates were slated for liquidation, a process which is to begin with the Auction at the Memphis International Paper Money Show, June 20th and 21st, 1986. We are making history here, not only in bringing to the collecting public a very rich trove of great diversity, depth and historical importance, but also in recalling that history itself, as we must in order to fully appreciate these pieces as collector's items. There follows a list of the Presidents of the two major systems, with their dates, to provide some perspective. We shall be supplementing this information, and will also publish a complete list of all the companies whose certificates will be offered. As to the cataloging itself, there are some new techniques we shall use to present the material as carefully and clearly as possible. First, we shall illustrate as many of the pieces as possible. Then, we shall indicate the total number of items of the variety shown. There may occasionally be questions about the actual number of examples, and we shall indicate this by a question mark. For many of the companies, the total is well under fifty or even twenty five, and a difference of a few units will make little difference. We shall always state these numbers conservatively; we must ask your understanding where further work with the archive results in a change of the quantities we were originally given, or believed to be correct. As reference sources for the companies themselves are generally available, we shall not overly describe the lots, unless specific reference is deemed appropriate. As to estimates, we have tried to be conservative, but as usual, the market will be the best judge. We hope you will enjoy this, the first look at one of the most exciting archives available today, and that you will share your reactions and ideas with us so that we may continue to serve you well.

Civil War map and Unionist Party Text insinuating how forbearing the Union was in 1861 and how near to sueeess the Federal forces are in the fall of 1864. The Map purports to show the area of formal CSA control in 1861 and present eontrol in 1864, the areas of control in 1861 being exaggeratedly large and the reverse in 1864. (Note the Texas and Florida maps). Also note that to exaggerate the Rebel's hold Maryland was given to them in 1861 and all of Missouri, but the Map disagrees with this. NICARAGUA: WILLIAM WALKER - AMERICAN GOLD RUSH ITEM.

1539 **$25.** (P.S101). 1-10-1856. **VG. (Photo) ★($250-500)**

Payable to W.M. Allen signed by J. Terrer (Minister of Hacienda), Registered by Fulde(?). Endorsed by D.B. Martin (Paymaster) and William Walker (President of the Republic). Signed on back by Allen. Has the appearance and crispness of a **Fine** note, but the wide borders are chinked and split in several places (though not into the design). There are several splits along the horizontal center fold. William Walker (1824-1860) after pursuing a career in law, medicine and journalism essayed his first filibustering expedition in 1853 where he attempted to seize Baja California for the U.S. When that failed, he turned his attention to Nicaragua. The Republic of Nicaragua was one of the five successor states that had arisen out of the disintegration of the Central American Confederation and the Conservatives and the Liberals were carrying on a Civil War which had already lasted for sixteen years. Since each was evenly matched with the other, the Conservatives were able to defy their opponents from the safety of the city of Granada, while the Liberals sought refuge at Leon. Commodore Vanderbilt, who had come a long way from a pedlar of produce from Staten Island to the owner of some ferry boats and now ocean vessels, found the chaos in Nicaragua unattractive as it greatly hindered the activities and profitability of the Accessory Transit Company, which transported would-be California settlers from the Atlantic to the Pacific coast of Nicaragua. With some backhanded support from the Commodore, Walker landed in Nicaragua and

ultimately had at his disposal a force of 750 Americans. With these, he conquered the Conservative citadel at Granada and then proceeded to outmaneuver the Liberals. By 1856 he had actually been inaugurated President of Nicaragua. Unfortunately, he fell out with Commodore Vanderbilt over control of the Transit Company and the Commodore, in retaliation, cut off his money and reinforcements. Unable to pay cash, Walker was compelled to emit special military scrip notes as an interim measure until taxes could be collected. In the meantime, dissention in Nicaragua was augmented by a combined attack launched by Guatemala, El Salvador, Honduras, and Costa Rica, who were determined to eject the Yankee intruders. By early 1857 Walker was on the ropes and had to flee for his life, surrendering to Commodore Charles Henry Davis of the U.S. Navy and returning with him to the United States. Walker organized a new expedition which set sail from Mobile but was intercepted by Commodore Hyram Halding and returned to the United States where he was again acquitted of violations of the U.S. Neutrality Act. Ultimately, Walker's luck ran out when he attacked Honduras. While he was successful in evading the British and American fleets posted in Nicaragua to prevent his further incursions there, the British consul in New Orleans had gotten wind of his objectives and provided the Honduran authorities with some timely intelligence. As a result, Walker's force was overwhelmed, and he was captured and executed on September 12, 1860.

Barber Quarters

1764 **1900-S. Choice Almost Uncirculated. (Photo)**
A sharply struck example with light wear barely visible beneath charcoal grey and silver toning and an occasional hint of orange. Under magnification, a number of hairline scratches on the neck. At first glance the coin has the appearance of a deeply toned Gem. Closer inspection suggests surfaces that may have been cleaned in the past and have since re-toned.

1765 **1901. Brilliant Uncirculated. (Photo)**
Both sides of this grey and black toned quarter are well above average in strike. There is streak of orange across the obverse and further hints of orange on the reverse.

1766 **1905 & 1910. Almost Uncirculated.** Both are lightly cleaned. The last is beginning to regain its natural color.

1767 **1901-O. Almost Uncirculated. (Photo)**
Sharply struck for an O-mint, and toned to an even, silvery charcoal grey. A wide band of extremely light hairline scratches is barely visible across the face, possibly from storage in an album with plastic slides.

Standing Liberty Quarters

1768 **1924-D. Choice Brilliant Uncirculated.** (MS63). **(Photo)**
Fully brilliant. Most of the coin is sharply struck, but the head and the area just across the top of the date are weak.

1769 **1930. Brilliant Uncirculated.**
The head is fully struck. Lustre is brilliant except where golden brown toning has begun to form around the first few letters in "LIBERTY". Only the slightest traces of "cabinet friction" can be seen along Liberty's leg.

Washington Quarter

1770 **Key Date. 1936-D. Choice Brilliant Uncirculated,** but deeply toned in violet with heavier gunmetal blue spots.

Bust Half Dollar

1771 **1831. Almost Uncirculated.**
About half of the original lustre is still present. Golden brown toning on the obverse.

Barber Half Dollars

1772 **1900. Choice Almost Uncirculated** (MS55). **(Photo)**
Attractive silvery pink fields. The peripheral devices are highlighted with charcoal grey toning.

1773 **1906. Brilliant Uncirculated.** (MS60-63). **(Photo)**
Light lavender with misty charcoal accents. There are a few tiny "slide" marks on the cheek and a nick in front of the neck.

Walking Liberty Half Dollars

1774 **Two Choice Brilliant Uncirculated Walking Liberty Half Dollars.**

1935 & 1943. Both are fully lustrous and above average in strike.

1775 **A Date Run of Attractively Toned, Mint State Walking Liberty Half Dollars. 9 Pcs.**

1) **1935 Choice BU**, light gold and lavender. 2) **1939 Choice BU,** light golden tones with traces of peripheral blue. 3) **1940 Choice BU,** misty lavender blue and pink. 4) **1943 Choice BU,** silvery white with touches of gold. 5) **1943-D Choice-Gem BU,** mostly red-brown with bright yellow highlights. The reverse is irridescent pink, blue and green. Exceptional lustre beneath the toning. 6) **1943-S BU,** centrally soft strike as is typical for this date and mint. Average lustre, clear surfaces. 7) **1946 BU,** misty blue-violet. Struck a bit weakly. There is a carbon spot on the sun. 8) **1946-D BU,** the strike on this silvery grey and white example is a bit soft. 9) **1947 Choice BU**, sharply struck with deep russet peripheral toning.

1776 **1941. BU-Choice Brilliant Uncirculated.** (MS60-63). **5 Pcs.**

All are average in strike, but above average in lustre. There are minor contact marks in the fields and occasionally on some of the high points.

1777 **1941, 1941-D & 1942. Choice Brilliant Uncirculated. 3 Pcs.**

The first and last are lightly toned.

1778 **1941 & 1942. Choice Brilliant Uncirculated.** A matched pair, both deep violet.

1779 **1941 & 1942. Choice Brilliant Uncirculated.** A matched pair of fully brilliant Walking Liberty Half Dollars.

1780 **1945 & 1947-D. Choice Brilliant Uncirculated.**

Franklin Half Dollars

1781 **1949, 1949-D & 1949-S. Choice Brilliant Uncirculated.**

The 1949-D is well above average in strike. The last two are light golden.

1782 **1949-D, 1950, 1951-D, 1951-S, 1955 & 1958. Choice Brilliant Uncirculated,** except for the last which is **BU.** All are attractively toned.

Seated Dollar

1783 **1860-O. Prooflike Brilliant Uncirculated.** (MS60). **(Photo)** **★($400-Up)**

Sharply struck centrally, but the devices are peripherally weak. There is a planchet defect in the reverse field extending from the lower left quadrant and visible just above the right wing. Despite having been lightly cleaned, the coin retains much of its original lustre.

Trade Dollar

1784 **1877-S. AU,** cleaned.

At first glance this appears to be a Prooflike and Uncirculated example. A closer inspection reveals slight wear and a lack of true mint lustre.

Early Silver Dollar

1785 **1794 Flowing Hair Dollar. VF. (Photo)**

According to Bolender, only one pair of dies was used to strike the first 1,758 silver dollars. This example has all the classic characteristics mentioned in his description; "…. weak on the lower part of the date and the stars on left, and sometimes the border milling on left does not show up. The corresponding portion of the reverse, especially the word STATE, will therefore appear weak." Formerly Lot #583 in Steve Ivy Numismatic Auctions, Inc. Gateway Sale of August, 1976 where it realized $9,500. The coin may have been cleaned in the distant past in association with the repair of a minor rim nick, but it is now a pleasing natural grey and black color. There are very light scratches between the first three stars. Unquestionably genuine and "Very rare".

Morgan Dollars

1786 **Nicely Matched Pair of First-Year-Of-Issue Morgans.**

1) 1878 7 Tail Feathers. 2) 1878-S. Both **Choice Brilliant Uncirculated.**

1787 **1878-CC. Choice-Gem Brilliant Uncirculated.** (MS63-65) **(Photo)**

A lovely example of this popular first-year-of-issue Carson City dollar. Fully struck with frosty, satiny surfaces. The obverse has a few areas of light contact marks along the cheek in the fields near the nose, but these are very minor. The reverse is fully Gem Brilliant Uncirculated.

1788 **1878-S. Choice-Gem Brilliant Uncirculated.** (MS63-65). **(Photo)**

A very pleasing example. The strike is sharp, and the frosty surfaces are beginning to show just a hint of uniform light golden toning.

1789 **1878-S. Choice Brilliant Uncirculated, Prooflike.** (MS63)

Deep mirror surfaces and moderately frosty devices. There are some minor contact marks in the fields.

1790 **Early Morgan Grouping. BU-Choice Brilliant Uncirculated.** (MS60-63). **5 Pcs.**

1) 1878-S. 2) 1879. Prooflike reverse. **3) 1880-S.** Semi Prooflike Gem BU reverse. **4) 1881. 5) 1881-S.** Clear, somewhat semi-prooflike surfaces that suggest a recent cleaning. All are sharply struck.

1791 **1879, 1882-S, 1904-O & 1923.** The first is **Almost Uncirculated,** the others are **Choice Brilliant Uncirculated. 4 Pcs.**

1792 **1879-S. Choice-Gem Brilliant Uncirculated, Prooflike.** (MS63-65).

Sharply struck with moderately deep mirror-like surfaces. The major design elements are lightly frosted. Liberty's cheek is very lightly scuffed just behind the mouth, and the reverse rim is nicked at 1 & 3 o'clock. Attractive shades of golden toning are present around the edges on the reverse.

1793 **1879-S. Choice Brilliant Uncirculated, Prooflike.** (MS63).

Sharply struck with deep mirror-like surfaces and contrasting frosty devices. There are a few minor contact marks in the field just in front of the forehead and heneath the 8th star. The reverse is superb except for a few bagmarks below the left wing, and a single contact mark below the right wing.

1794 **1880. Choice Brilliant Uncirculated, Semi-Prooflike.** (MS63).

The sharpness of strike, semi-prooflike surfaces and frosty, contrasting devices are typical of Morgan dollars minted in San Francisco during this era, but unusual in a Philadelphia issue. Clearly a Choice example, but the few contact marks on the neck, chin and behind Liberty's eye keep it out of the Gem catagory.

1795 **1880. Choice Brilliant Uncirculated.** (MS63).

Exceptionally bagmark-free surfaces and creamy brown and pink toning enhance the beauty of this lovely Philadelphia mint silver dollar. The strike is average.

1796 **1880, 1880-O & 1880-S. Choice Brilliant Uncirculated.** (MS63). **3 Pcs.**

All are above average in strike. The 1880-S is frosty white with light pink & gold tones.

1797 **1880-CC. Third Reverse. Choice Brilliant Uncirculated.** (MS63). **(Photo)**

A broad vertical band of blue & rose toning covers about one third of the left side of the obverse. A few minor scuffs are visible along Liberty's cheekbone and on her neck. The attractive reverse is frosty pink and lavender.

1798 **1880-CC. Choice Brilliant Uncirculated, Prooflike.** (MS-63). **(Photo)**

Nicely frosted with glittering, mirror-like surfaces. The stars are struck a bit soft, as are the reverse peripheral mottos. A few bagmarks are visible on Liberty's cheek, but the overall appearance of the coin is quite Choice.

1799 **1880-S. Choice Brilliant Uncirculated.** (MS63).

Semi-prooflike, partially frosted, and attractively toned with a misty arc of orange on the obverse.

1800 **1880-S. Choice Brilliant Uncirculated.** (MS63-64). **(Photo)**

A sharply struck and attractively frosty example with just a hint of orange toning around the edges. There are contact marks in the obverse fields in front of and behind Liberty, but the critical cheek and neck areas are relatively clean.

1801 **1880-S. Choice Brilliant Uncirculated.** (MS63-64).

A light scrape on Liberty's jaw keeps this creamy pink-orange and white toned Morgan out of the Gem catagory.

1802 **1880-S. Choice-Gem Brilliant Uncirculated, Prooflike.** (MS63-65). **(Photo)**

Clouds of frosty light pink-orange toning are evenly distributed over both sides of this Prooflike and sharply struck example. There is a light scrape just behind Liberty's mouth and a pattern of four almost microscopic hagmarks in the field just above the 1st star, mentioned for identification purposes.

1803 **1880-S & 1881-S. Choice Brilliant Uncirculated.** (MS63).

Both are fully lustrous, well above average in strike, and both have a minimal amount of contact marks.

1804 **1881. Choice Brilliant Uncirculated.** (MS-63).

All three are deeply toned in a curious checkerboard pattern on the obverses as if they had been taped into a coin album. The reverses are magnificently colored in brilliant blue, orange and gold.

1805 **1881, 1881-CC & 1881-S. Choice Brilliant Uncirculated.** (MS63).

All are sharply struck and fully brilliant. The last is semi-prooflike on the reverse.

1806 **1881-S. Choice-Gem Brilliant Uncirculated, Semi-Prooflike.** (MS63-65).

The reasonably clear semi-prooflike surfaces and frosty devices are lightly toned in pink-gold, except for a gunmetal blue area near the date. While the strike is average, Liberty's cheek is exceptionally clear. Some light fingerprinting is apparent in the pattern of toning in the fields above the first stars and behind Liberty's cap.

1807 **A Choice Brilliant Uncirculated** (MS63-64) **Grouping of 1881-S Morgans. 3 Pcs.**

The first has a Prooflike obverse and is beautifully toned in shades of pink gold. A few light carbon spots are visible; one near the first star and another between the first "1" & "8" in the date. Two more may be found just in front of Liberty's cap. The second example is semi-prooflike on both sides and similar in color to the first, except for a a band of misty green toning towards rim on the upper right quadrant of the reverse. The third 1881-S in this group has frosty white surfaces and devices with just of hint of pink-gold toning. There is an arc of blue-green towards the right rim on the reverse.

1808 **1881-S. Choice Brilliant Uncirculated.** (MS63). **2 Pcs.**

The first has an average strike, with deeply frosted devices highlighted in purple on the obverse. The reverse is splashed with pink-gold and creamy silver tones. The second example is light pink-gold and sharply struck. There are two noticeable scrapes, one beneath Liberty's eye and the other on her neck.

1809 **1881-S. Choice Brilliant Uncirculated.** (MS63). **5 Pcs.**

All with semi-prooflike light pink-gold surfaces.

1810 **1882-CC. Brilliant Uncirculated.** (MS60).

Both sides with deeply prooflike surfaces and highly contrasting devices, but there are numerous scrapes on Liberty's cheek and neck.

1811 **1882-CC. Choice Brilliant Uncirculated.** (MS63).

Deep mirror prooflike surfaces and attractive, deeply frosted devices. There is a light scrape along Liberty's cheek bone and a minor scratch in the field in front of her eyes. A few contact marks are visible on the eagles's breast. The central portions of Liberty's cheek are clear, and the overall appearance of this popular Carson City issue is quite Choice.

1812 **1882-O. Choice-Gem Brilliant Uncirculated.** (MS63-65). **(Photo)**

The strike on this New Orleans Morgan dollar is above average; the eagle's breast is well rounded and the individual feathers are quite visible. Both sides of the coin exhibit brilliant frosty white original mint lustre with violet and gold peripheral toning. There is a 2 mm. scratch along the right side of the eagle's breast.

1813 **1882-S. Choice Brilliant Uncirculated.** (MS63).

Sharply struck, with gold and violet peripheral toning. There are a few contact marks in the fields below Liberty's chin and behind her head. A short pinscratch extends for about 2 mm behind Liberty's mouth.

1814 **1882-S. Choice Brilliant Uncirculated, Prooflike.** (MS63).

Sharply struck, with prooflike surfaces and light pink toning throughout. There is a very light pinscratch horizontally between Liberty's mouth and ear.

1815 **A Date Run of BU-Choice Brilliant Uncirculated Morgan Dollars. 8 Pcs.**

1) 1882-S. Choice BU, semi-prooflike. The obverse with pink toning. **2) 1884-O. Choice BU.** Sharply struck for this date and mint. Toned a light golden brown. **3) 1885. Choice BU.** Sharply struck. The fields are exceptionally clear on both sides of the coin but there is a shallow scrape on the cheek. **4) 1885-O. Choice BU.** Another well-above-average strike for a New Orleans mint Morgan. Brilliant lustre heneath pink-gold toning. **5) 1886. Choice BU. 6) 1887. Choice BU. 7) 1888-S. BU.** There is a significant rim nick at 2 o'clock on the obverse and another at 4 o'clock on the reverse. **8) 1889. Choice BU.** A very pleasing example with minimal contact marks of any nature. The strike is typically soft. Evenly toned in violet with peripheral splashes of russet.

1816 **1882-S, 1883-O, 1884-O, 1885-O, 1886 & 1887. Choice Brilliant Uncirculated.** (MS63). **6 Pcs.**

1) 1882-S. Frosty pink-gold satiny surfaces throughout. Sharply struck. **2-4) 1883-O, 1884-O & 1885-O.** All above average strikes with well rounded breasts. **5) 1886.** Exceptionally brilliant lustre and attractive rose-colored peripheral toning. There are a few very light pinscratches on the jaw and another on the reverse over "ONE". **6) 1886.** Similar in lustre and overall appearance to the previous. There is an area of dark blue toning over "UNITED" on the reverse.

1817 **1883-CC. Choice-Gem Brilliant Uncirculated.** (MS63-65). **(Photo)**

Highly attractive with swirls of orange-gold toning on the obverse. The reverse remains fully brilliant. Sharply struck. There are minimal contact marks on the cheek.

1818 **1884-CC. Choice Brilliant Uncirculated.** (MS63).

In the original issue box with all accompanying literature. Exceptionally clean and frosty fields, but there are some contact marks in the jaw and along the neck.

1819 **1884-CC. Choice Brilliant Uncirculated.** (MS63).

1820 **1884-CC. Choice Brilliant Uncirculated.** (MS63).

Above average strike. Just beginning to turn light golden.

1821 **1884-O. Choice Brilliant Uncirculated, Prooflike.** (MS63).

A "Cameo", with deeply frosted devices and mirror-like fields. Numerous very fine contact marks keep this example out of the Gem catagory. The entire coin is toned a light misty pink.

1822 **Five Different Choice Brilliant Uncirculated** (MS63) **Morgans.**

1884-O, 1885, 1885-O, 1890 & 1898-O. All with frosty white fully lustrous surfaces. The O-mints all have nicely rounded breasts, while the 1890 is a bit flat at the central portions.

1823 **A Nice Trio of BU-Choice Brilliant Uncirculated** (MS60-63) **Morgans.**

1884-O, 1885-O & 1888. All three are a struck a bit softly over the ear. The reverses are average strikes. Fully brilliant frosty white surfaces with hints of light gold toning near the edges on all three.

1824 **Another Choice Trio of Morgans** (MS63). **3 Pcs.**

1884-O, 1885-O & 1888. The first and last are above average in strike. All three have fully brilliant frosty white surfaces. The **1884-O** ringed in golden tones on the reverse.

1825 **1885-CC. Choice Brilliant Uncirculated.** (MS63). **(Photo)**

The strike is above average. Frosty white surfaces throughout, with a crescent of irridescent violet, green-gold & blue toning on the lower half of the reverse along the rim. There is a scrape behind the eye and along the front of Liberty's neck.

1826 **1885-CC. Choice-Gem Brilliant Uncirculated.** (MS63-65). **(Photo)**

Satiny white brilliant, fully lustrous surfaces. The strike is above average. Liberty's face has very few extremely light contact marks, though there is a scratch just above the tip of her neck. Violet peripheral toning further enhances the beauty of this popular Carson City Morgan dollar.

1827 **1887. Choice-Gem Brilliant Uncirculated.** (MS64).

This example exhibits exceptional lustre and clean, clear surfaces. The strike is well above average, though the obverse is a bit stronger than the reverse

1828 **Choice Brilliant Uncirculated, Prooflike** (MS63) **Morgan Dollar Trio. 1887, 1896 & 1899-O. 3 Pcs.**

1829 **1889-CC, VF,** with a nick on the jaw.

1830 **1889-CC. Choice Almost Uncirculated.** (MS55). **(Photo)**
Retaining almost all of its original mint lustre, this sharply struck example of one of the scarcest issues in the Morgan series would fit beautifully into an Uncirculated set. Only close inspection reveals wear on the high points.

1831 **1889-S. Choice Brilliant Uncirculated, Prooflike.** (MS63).
The lightly frosted devices are swirled in patterns of pink-gold toning. Sharply struck. This coin could easily be considered a Gem, but for the contact marks behind Liberty's mouth.

1832 **1891-CC. Brilliant Uncirculated.** (MS60).
The lustre is a bit dull.

1833 **No Lot.**

1834 **1891-O. BU-Choice Brilliant Uncirculated.** (MS60-63).
Typically struck for this date and mint; a bit flat above the ear and the eagle's breast feathers are not visible. The entire obverse is swirled with pink and grey clouds of toning. An occasional hint of orange can also be seen. A light 4 mm scratch runs vertically through Liberty's hair from just below the "Y".

1835 **1892-O. Brilliant Uncirculated.** (MS60-63).
If judged on clear surfaces and lustre alone, this example could easily be called Choice. The strike, however, is quite flat above the ear and on the eagle's breast.

1836 **1893-O. EF** (40).
Lightly cleaned in the past and now toned back down to silver and grey.

1837 **1893-O. EF** (40).
Lightly cleaned. The obverse has a large area of blue-black coloration from the 3rd star through the date and on to the 9th star.

KEY DATE MORGAN

1838 **1893-S. About Fine. (Photo)**
A very nice circulated example of this very scarce date. The rims are almost devoid of the usual problems associated with a coin that has seen a good deal of circulation. Natural grey toning accents the devices. A few light diagonal contact marks are visible on Liberty's face behind her eye, and another light group of contact marks is visible meneath the "M" in "UNUM". None of these are noticeably distracting.

1839 **1894-O. Choice Brilliant Uncirculated.** (MS63). **(Photo)**
While the obverse strike is above average for this date and mint, some weakness is evident just above the ear. On the reverse, the breast is well rounded and the individual feathers are visible, though not distinct. Lustre and brilliance are well above average. There are a number of very fine surface abrasions on the face and in the obverse fields.

1840 **1895-O. EF** (40).
The obverse is a lovely silver and deep grey in color with lustre still present in the deeper recesses of the hair and around the stars and lettering. The reverse has silvery-white toning between the letters and in between the denticles.

1841 **1895-O. EF** (40).
Some lustre remains in the recesses of the eagle's wings and around the stars and lettering. There is a 3 mm diagonal scratch in center of the cheek.

1842 **1895-S. AU** (50). **(Photo)**
The surfaces appear to be almost semi-prooflike on this sharply struck example of one of the scarcer dates in the Morgan series. There are a few light digs on Liberty's neck and a scratch in the field above the "F" in "OF" and the "A" in "AMERICA".

1843 **1896. Choice Brilliant Uncirculated, Prooflike.** (MS63).
A "Cameo", with frosty, contrasting devices. There are many fine abrasions in the mirror like fields, most noticeable on the obverse.

1844 **1897 & 1897-S. Choice-Gem Brilliant Uncirculated.** (MS63-65).
A well-matched pair, both superior to the average Choice BU in brilliance and strike. Traces of pink-violet toning are just beginning to develop on both examples.

1845 **1897-S. BU-Choice Brilliant Uncirculated.** (MS60-63). **3 Pcs.**
The first has a scrape in the reverse rim at 1 o'clock. The second is struck a bit flat.

1846 **1897-S. BU-Choice Brilliant Uncirculated.** (MS60-63). **3 Pcs.**
All three have one or two tiny carbon spots but are otherwise frosty white with full brilliance.

1847 **1897-S. BU-Choice Brilliant Uncirculated.** (MS60-63).
All three frosty white and fully brilliant, but with numerous light contact marks.

1848 **1897-S. Brilliant Uncirculated.** (MS60). **5 Pcs.**

1849 **1897-S. Brilliant Uncirculated.** (MS60). **5 Pcs.**

1850 **1897-S. Brilliant Uncirculated.** (MS60). **5 Pcs.**

1851 **1897-S. Brilliant Uncirculated.** (MS60). **5 Pcs.**

1852 **1897-S. Choice Almost Uncirculated. 3 Pcs.**

1853 **1897-S. Choice Almost Uncirculated. 3 Pcs.**

1854 **1897-S. Choice Almost Uncirculated. 5 Pcs.**

1855 **1899. Choice Brilliant Uncirculated.** (MS63). **(Photo)**
Sharply struck. Liberty's cheek is relatively free from contact marks, but a few are visible on her jaw.

1856 **1899-O. Choice Brilliant Uncirculated.** (MS63). **(Photo)**
An exceptionally brilliant example. The strike is above average and the coin is attractively toned in peripheral gold and violet.

1857 **1900 and 1900-O. Choice Brilliant Uncirculated.** (MS63). **2 Pcs.**
Both with well rounded breasts. The P-mint is a bit sharper on the reverse. A nicely matched pair.

1858 **1900-O. Choice-Gem Brilliant Uncirculated, Prooflike.** (MS63-65). **(Photo)**
A sharply struck "Cameo" with mirror-like fields and contrasting frosty devices. There is a small carbon spot on the 7th star, mentioned for identification purposes.

1859 **1900-O, 1901-O, 1902-O and 1904-O. All Choice Brilliant Uncirculated.** (MS63). **4 Pcs.**
All four with rounded breasts and full mint lustre.

1860 **1902, 1903 and 1904. 3 Pcs.**
All three are "sliders", examples that could easily pass for Uncirculated. The obverse of the 1903 has been overcleaned.

1861 **1902-S and 1903. BU-Choice Brilliant Uncirculated.** (MS60-63).
The first with a heavy bagmark across Liberty's neck and a contact mark on the eagle's chest. The last is well-struck with semi-prooflike surfaces.

1862 **1904-O. Choice-Gem Brilliant Uncirculated, Prooflike.** (MS63-65). **(Photo)**
Sharply struck for this date and mint except for the stars and date which are shallow. There is a hint of pink toning.

1863 **1921 Morgan. Choice-Gem Brilliant Uncirculated, Prooflike.** (MS63-65). **(Photo)**
Deep-mirror fields on both sides. Just a trace of golden brown and lavender toning. The strike is needle sharp. There is a small contact mark on the tip of Liberty's nose, and another tiny one on the eagle's breast. Certainly the nicest Prooflike 1921 Morgan we have offered in many years.

1864 **1921 Morgan. Choice Brilliant Uncirculated, Prooflike.** (MS63).
The obverse strike is needle sharp in the central portions, though the stars are a bit shallow. The coin has the appearance of a "Cameo" with frosty devices and contrasting mirror-like surfaces. Liberty's cheek has only a few minor contact marks. There are several hairline scratches in the field behind her head.

1865 **Toned 1921 Morgan Trio. Choice Brilliant Uncirculated.** (MS63).

All three are above average in strike, and deeply toned in powdery charcoal grey, misty violet and gold. One example has a few carbon streaks near the center of the obverse.

1866 **1921-S. Choice Brilliant Uncirculated.** (MS63).

A well-above-average strike for this date and mint. Light golden brown toning highlighted with splashes of yellow, red and green.

1867 **1921 Morgan PDS Set. BU-Choice Brilliant Uncirculated.** (MS60-63).

1) 1921 Morgan. Pink with splashes of blood-red and orange. **2) 1921-D.** Sharply struck with comparatively clear pink satiny surfaces. **3) 1921-S.** An average strike for this date and mint. The surfaces are relatively free from the usual contact marks.

1868 **1921 Peace. Brilliant Uncirculated.** (MS60).

1869 **Four Remarkably-Toned 1922 Peace Dollars. Choice Brilliant Uncirculated.** (MS63).

1) The strike is average, but there is blazing frosty white lustre beneath a pretty mist of light lavender toning. **2)** While the strike is a bit soft, the misty blue and pink toning and absence of any noticeable contact marks make this an extremely desirable example. **3)** Even and vivid pink and silvery-lavender toning covers both sides. The strike is average. **4)** Toned deep gold and pink. The strike is above average.

1870 **1922. Gem Brilliant Uncirculated.** (MS65). **(Photo)**

The strike is exceptional on the brilliant white and misty rose obverse. The similarly toned reverse is just as attractive.

1871 **A Group of Beautifully-Toned and Matched 1922 Peace Dollars. BU-Choice Brilliant Uncirculated.** (MS60-63). **5 Pcs.**

All are misty lavender from long-time storage in paper 2 x 2 holders. They are relatively free of contact marks, and the strikes are average.

1872 **1922. Choice Brilliant Uncirculated.** (MS63). **5 Pcs.**

All are well above average in strike and brilliance.

1873 **6 Different Brilliant Uncirculated Peace Dollars, Including Semi-Keys.**

1874 **1923. Choice-Gem Brilliant Uncirculated.** (MS63).

Deeply toned with splashes of blue-black against an irridecent lavender, green and gold background. The strike is better than average. Close examination reveals a very faint scrape in the obverse field at 9 o'clock. Liberty's cheek and the eagle's breast are very clean.

1875 **1924. Choice Brilliant Uncirculated.** (MS63). **5 Pcs.**

All are beautifully toned after long years of storage in paper 2 x 2 envelopes. Bagmarks are minimal.

1879 **Three Different Well-Worn $2 1/2 Indians.**

1909, 1911 and 1926. All grade **About Good** due to heavy wear only.

1880 **1859-C. $5 Liberty.**

The detail is **Fine,** but this example has been used as jewelry. There are four areas of damage on the obverse where the coin was probably soldered into a bracelette. A nice "filler" for a beginning collector of Charlotte gold.

1881 **1867-S. $5 Liberty.**

About Fine on the obverse. The reverse rim is worn into the lower portions of "FIVE D.". Scarce, as only 29,000 were minted.

City arms/large "10" completely filling plain field. Sometimes considered a pattern, due to its rarity. The mintage in KM (124,000) is suspect. In the corners: 1732/1932/AND THIS BE OUR MOTTO/IN GOD IS OUR TURST. Our consignor informs us that this was the second place winner in the competition for what was at that time a one-year commemorative issue. The winning design was eventually adopted as the standard Washington Quarter still in use today. Cremona later used his design as part of a 1933-34 Chicago Century of Progress Medal.

During the war, it was a leader in blockade-running and its chief partner, George A. Trenholm, was Confederate Secretary of the Treasury July 1864 - April 1865. The Agents on his behalf were William L. Trenholm, his son (later Comptroller of the Currency under Cleverland 1885-89). Lowndes and Wagner were from prominent local families. The chief negotiator for the creditors was James Robb (1817-81) banker (N.O. and N.Y.), railroad executive of the Chicago and Alton, N.O., Jackson and Great Northern RR, etc. Although the Trenholm firm made a lot of money on blockade running, losses on their confederate accounts, heavy advances to South Carolina firms and disastrous crop failures destroyed it.

Lyon commanded at the Battle of Wilson's Creek, Missouri and was wounded both in the leg and head, before finally being killed in action late in the evening of Aug. 10, 1861. Historian James Monaghan has written "Had the fortunes of battle spared Lyon, Wilson's Creek might have been the most brilliant victory of the Civil War. Certainly Lyon displayed a vigor in saving Missouri for the Union which should have pre-herded a distinguished career. General Sherman blamed the next four years of strife and pillage in Missouri on Lyon's death. "Some edge tears, not at all affecting the illustration. Fine condition. **($50-100)**

3724 **Old-Time Crank Movie Billboards.** The Tunney-Heeney Fight and the Tunney Dempsey Fight. **($50-100)**

The movie industry owes its beginnings to early "crank movie" makers. About a minutes-worth of entertainment was available for a penny, simply dropping a coin into the slot and cranking a handle. The "movies" consisted of a reel of over 100 still shots that were flipped as the crank turned. Early subjects included sports, travel, war, and later on "cheesecakes" (girlies). The billboards were inserted into a frame attached to the top of the machines. 10½ x 20 inches, with actual photos on a colored, silk-screened background. The corners are rounded and some of the lettering is faded.

3725 **"REAL MOVING PICTURES - ONE CENT".** Four crank movie billboards. (See above lot for background information). **($100-150)**

1) TOM MIX in "Stage Coach Competition." 2) DANCE OF LOVE, starring a scantily-clad charmer. 3) "The Flying Wooden Soldier," an early cartoon subject. 4) "First Experiences on the Bowery." All four with minor edge or corner damage but still very presentable, and well-suited for framing.
